

ANYROOM

WIRELESS SPEAKER SYSTEM FOR iPod and iPhone

Stream music wirelessly from your iPod to speakers throughout your home.

LISTEN ANYWHERE IN THE HOUSE

ANYROOM is the speaker system that helps you to enjoy your favorite songs from your iPod wherever you go in your home without headphones. Simply place an ANYROOM speaker in any room the house and it's ready to receive your music wirelessly.

TECHNOLOGY IN MOTION

ANYROOM allows CD-quality audio to be transmitted wirelessly from your iPod or iPhone directly to speakers throughout your home. A small transmitter connects to your iPod and transmits audio to speakers with built-in receiver modules. You can even expand ANYROOM with more speakers that you can listen in different locations throughout your house, apartment, or office. Leisurely select and play music, control volume level and apply sound-shaping EQ using your iPod or iPhone as you enjoy the convenience and quality-sound from the ANYROOM experience.

UNPARALLELED CONVENIENCE

Unlike traditional boom boxes or speaker systems with a dock in them, ANYROOM gives you the freedom to move about without missing a note. With ANYROOM there's no need to tether your iPod or iPhone to a single location or wear uncomfortable earbuds or headphones. Just connect

iPod and iTunes are trademarks of Apple Inc., registered in the U.S. and other countries. Design and specifications are subject to change without notice.

the transmitter to your iPod, select your tracks and go wherever you have an ANYROOM speaker; the music will follow you.

In addition to room-filling, quality sound, ANYROOM speakers are also compact and stylish so you can put them just about anywhere. They fit easily on bookshelves, countertops, sidebars or anywhere else you need to hear your music.

Go ahead. Fill your iPod with your favorite tunes and have the music follow you around your home anywhere with ANYROOM!
