

PICS 2 SD

PHOTO, SLIDE, AND FILM SCANNER

Enjoy your old pictures on your digital picture frame.

Rediscover your long-lost photo prints, slides, and film negatives with PICS 2 SD. This high-quality scanner transfers your images directly onto an SD card so you can enjoy your old pictures with the latest technology. Thanks to PICS 2 SD's full-color LCD screen, you don't even need a computer to make it work!

You can view your images on your digital picture frame, your television if it has an SD card slot, your mobile phone with a micro SD slot, computer, and other portable devices. Imagine all of your memories with you at home or anywhere you go.

PICS 2 SD is fast and easy to use. Just one button starts the scan, which takes an average of one to two seconds! Convenient auto focus, auto exposure, and auto-color balance mean you don't have to be a photo whiz to make great digital images. PICS 2 SD does all the hard work for you.

PICS 2 SD has a built-in SD card slot, so you can scan directly to virtually any SD card without needing a computer. You can also connect PICS 2 SD to your Mac or PC and use it as

a handy SD card reader. You can drag and drop your pictures from PICS 2 SD right onto your desktop.

PICS 2 SD makes high-resolution scans of all of your color and black & white slides and film negatives. PICS 2 SD is portable, lightweight, and has an ultra-small footprint so you can take it with you and scan your friends' and family's pictures too. Start rediscovering your old pictures today with PICS 2 SD.
