

SOUND SESSION DRUMS

COMPLETE ELECTRONIC DRUM SET

Rock hard. Don't wake the neighbors.

Have you ever wanted to play the drums, but live in an apartment or a neighborhood where you can't have the noise of an acoustic drumset? Or, maybe you would like to start playing the drums, but don't have the room for a traditional set of drums.

Sound Session Drums are perfect for you! This electronic drumset fits into a fraction of the space of an acoustic drumset, and comes with everything you need to get started playing today. The complete set contains all the pads and foot pedals you need for playing drum, cymbal, and percussion sounds; a completely-adjustable stand, a sound module with 223 realistic sounds, headphones for silent practice, a pair of drumsticks, and cables to connect to your stereo or amplifier.

Sound Session has soft, rubber drum and cymbal-pad surfaces for natural feel. Velocity sensitivity accurately responds to quieter and louder playing with corresponding changes in volume. Sound Session has a flexible drum-sound module with 223 high-quality drum, cymbal and percussion sounds.

When it's time to rock out, you'll have everything you need to practice quiet... and play loud!

Design and specifications are subject to change without notice.

FEATURES

- Five drum pads respond accurately to quieter and louder playing
- Two foot pedals for playing bass drum and HiHat
- Drum module with 223 high-quality drum, cymbal and percussion sounds
- 50 preset drum patterns including rock, R&B, funk, blues, rap, techno, reggae, jazz, new age, country, latin, and ballad styles
- Sequencer for recording and playing back your own drum patterns, performances, and solos
- Headphone jack for quiet practice without loudspeakers
- Closed-cup headphones that block outside noise
- MIDI output for connection to other musical instruments or computer
- Foldable, adjustable stand for easy storage
- Drumsticks so you're ready to rock, right out of the box
- Audio cables for connection to stereo or recording equipment
