VOICE ASSISTANT**  
Send hands-free commands  
with built-in microphone

### Enjoy big stereo sound in a totally waterproof floating boombox!

Surf FM is a high-performance Bluetooth®-streaming boombox and FM radio with dual full-range drivers coupled with two bass radiators that deliver impressive low-end punch. Driven by a 26-watt dynamic power amplifier, Surf FM also has a built-in microphone so you can answer your phone calls, Bluetooth® music control with Play/Pause, Next/Previous Track buttons and a built-in rechargeable battery for hours of uninterrupted fun.

But what really sets Surf FM apart is its special shape and totally waterproof design. Not only does it float when you toss it in the pool, but the speakers stay above water, angled perfectly to deliver great sound. Plus, it has a rugged/rubberized design and IP67 waterproofing.
